Amendment to SB-FRS 39 <i>Financial Instruments: Recognition and Measurement</i>	

Interpretation of Statutory Board Financial Reporting Standard 105 *Rights to Interests arising from Decommissioning, Restoration and Environmental Rehabilitation Funds* (INT SB-FRS 105) is set out in paragraphs 1–15. The scope and authority of Interpretations are set out in the *Preface to Statutory Board Financial Reporting Standards*.

Interpretation of Statutory Board Financial Reporting Standard 105

Rights to Interests arising from Decommissioning, Restoration and Environmental Rehabilitation Funds

Background

- 1 The purpose of decommissioning, restoration and environmental rehabilitation funds, hereafter referred to as 'decommissioning funds' or 'funds', is to segregate assets to fund some or all of the costs of decommissioning plant (such as a nuclear plant) or certain equipment (such as cars), or in undertaking environmental rehabilitation (such as rectifying pollution of water or restoring mined land), together referred to as 'decommissioning'.
- 2 Contributions to these funds may be voluntary or required by regulation or law. The funds may have one of the following structures:
 - (a) funds that are established by a single contributor to fund its own decommissioning obligations, whether for a particular site, or for a number of geographically dispersed sites.
 - (b) funds that are established with multiple contributors to fund their individual or joint decommissioning obligations, when contributors are entitled to reimbursement for decommissioning expenses to the extent of their contributions plus any actual earnings on those contributions less their share of the costs of administering the fund. Contributors may have an obligation to make additional contributions, for example, in the event of the bankruptcy of another contributor.
 - (c) funds that are established with multiple contributors to fund their individual or joint decommissioning obligations when the required level of contributions is based on the current activity of a contributor and the benefit obtained by that contributor is based on its past activity. In such cases there is a potential mismatch in the amount of contributions made by a contributor (based on current activity) and the value realisable from the fund (based on past activity).
- 3 Such funds generally have the following features:
 - (a) the fund is separately administered by independent trustees.
 - (b) entities (contributors) make contributions to the fund, which are invested in a range of assets that may include both debt and equity investments, and are available to help pay the contributors' decommissioning costs. The trustees determine how contributions are

invested, within the constraints set by the fund's governing documents and any applicable legislation or other regulations.

- (c) the contributors retain the obligation to pay decommissioning costs. However, contributors are able to obtain reimbursement of decommissioning costs from the fund up to the lower of the decommissioning costs incurred and the contributor's share of assets of the fund.
- (d) the contributors may have restricted access or no access to any surplus of assets of the fund over those used to meet eligible decommissioning costs.

Scope

- 4 This Interpretation applies to accounting in the financial statements of a contributor for interests arising from decommissioning funds that have both of the following features:
 - (a) the assets are administered separately (either by being held in a separate legal entity or as segregated assets within another entity); and
 - (b) a contributor's right to access the assets is restricted.
- 5 A residual interest in a fund that extends beyond a right to reimbursement, such as a contractual right to distributions once all the decommissioning has been completed or on winding up the fund, may be an equity instrument within the scope of SB-FRS 39 and is not within the scope of this Interpretation.

Issues

- 6 The issues addressed in this Interpretation are:
 - (a) how should a contributor account for its interest in a fund?
 - (b) when a contributor has an obligation to make additional contributions, for example, in the event of the bankruptcy of another contributor, how should that obligation be accounted for?

Consensus

Accounting for an interest in a fund

- 7 The contributor shall recognise its obligation to pay decommissioning costs as a liability and recognise its interest in the fund separately unless the contributor is not liable to pay decommissioning costs even if the fund fails to pay.
- 8 The contributor shall determine whether it has control or joint control of, or significant influence over, the fund by reference to SB-FRS 110, SB-FRS 111 and SB-FRS 28. If it does, the contributor shall account for its interest in the fund in accordance with those Standards.
- 9 If a contributor does not have control, or joint control of, or significant influence over, the fund, the contributor shall recognise the right to receive reimbursement from the fund as a reimbursement in accordance with SB-FRS 37. This reimbursement shall be measured at the lower of:
 - (a) the amount of the decommissioning obligation recognised; and
 - (b) the contributor's share of the fair value of the net assets of the fund attributable to contributors.

Changes in the carrying value of the right to receive reimbursement other than contributions to and payments from the fund shall be recognised in profit or loss in the period in which these changes occur.

Accounting for obligations to make additional contributions

- 10 When a contributor has an obligation to make potential additional contributions, for example, in the event of the bankruptcy of another contributor or if the value of the investment assets held by the fund decreases to an extent that they are insufficient to fulfil the fund's reimbursement obligations, this obligation is a contingent liability that is within the scope of SB-FRS 37. The contributor shall recognise a liability only if it is probable that additional contributions will be made.

Disclosure

- 11 A contributor shall disclose the nature of its interest in a fund and any restrictions on access to the assets in the fund.
- 12 When a contributor has an obligation to make potential additional contributions that is not recognised as a liability (see paragraph 10), it shall make the disclosures required by paragraph 86 of SB-FRS 37.
- 13 When a contributor accounts for its interest in the fund in accordance with paragraph 9, it shall make the disclosures required by paragraph 85(c) of SB-FRS 37.

Effective date

- 14 An entity shall apply this Interpretation for annual periods beginning on or after 1 January 2006. Earlier application is encouraged. If an entity applies this Interpretation to a period beginning before 1 January 2006, it shall disclose that fact.
- 14B SB-FRS 110 and SB-FRS 111, issued in September 2011, amended paragraphs 8 and 9. An entity shall apply those amendments when it applies SB-FRS 110 and SB-FRS 111.

Transition

- 15 Changes in accounting policies shall be accounted for in accordance with the requirements of SB-FRS 8.
